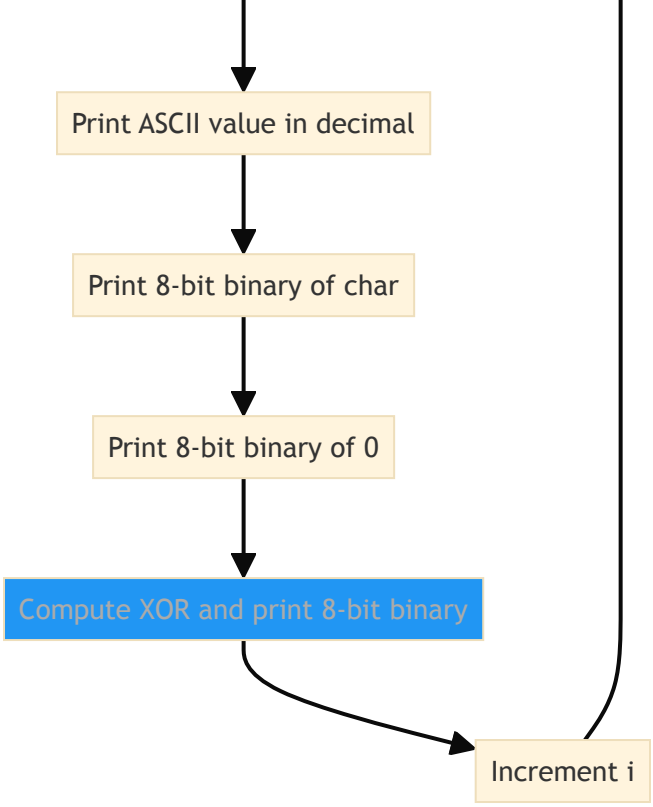
Start
Initialize String: 'Hello World'
Print Original String
Initialize Index: i = 0
i < length(String)?
Yes
No
Compute result = str[i] XOR 0
Append result to output
Increment i
Print Result String
Print Bitwise Detail Table Header
Initialize Index: i = 0
i < length(String)?
Yes
No
Get char = str[i]
End



Print ASCII value in decimal
Print 8-bit binary of char
Print 8-bit binary of 0
Compute XOR and print 8-bit binary
Increment i
